- On May 8, 2012, Dr. Bulford moderated the Ellis McClellan Dental Implant Study Group Keynote Speaker Seminar. Dr. Mariano Polack of Gainesville, Virginia addressed the membership. His topic, "***Esthetic Restoration and Replacement of Teeth to Achieve Optimal Dental Function and Appearance,***" was well-received by the 65 doctors in attendance.

The 2012-2013 schedule and membership application can be found on our website under the STUDY GROUP link:

www.SCOMSA.com

- Dr. Bulford, Clinical Attending, at Ellis Hospital Dental Clinic, once again was honored as "***Teacher of the Year***" by the Medicine Dental Residency Program.

- In June, American and international distance runners gathered for the Freihofer's Run for Women. The 4000 individual participants were joined by nearly 300 teams. SCOMSA was proud to sponsor a team which successfully completed the run!

- Dr. Farren has recently accepted the position of chairperson for The Fourth District New Dentist Committee. As Chairperson, he will represent the Fourth District on the NYSDA New Dentist Committee and lead in the organization of new dentist events within our district and at the State level.

- September was a busy Month at SCOMSA. On September 27th we hosted an open house at our Greenwich office. We were delighted at the overwhelming outpouring of support and well-wishes from all friends, family and professional colleagues who shared the evening with us.

Editor: Lisa Gruber

- Also in September, Dr. Olszowka and Dr. Farren travelled to San Diego, California to attend the 2012 American Association of Oral and Maxillofacial Surgeons' annual meeting. While in California, both surgeons attended clinical and management continuing education courses.

Four SCOMSA administrative staff members also attended the National Meeting. The staff participated in medical/dental coding courses and also attended a San Diego Padres home game at Petco Park.

Dr. Olszowka capitalized on his trip to San Diego by checking in on friends made during his assignment at the Naval Medical Center.

- Dr. McDermott enhances the lives of her patients in Saratoga Springs, Gloversville and Clifton Park. Dr. McDermott continues to participate in the **Donated Dental Services Program** through which she provides care to our community's most vulnerable patient's including the severely medically compromised who can neither afford necessary treatment nor get public aid. We are proud to support Dr. McDermott and her surgical team in their efforts on behalf of these patients.
