

# SCOMSA NEWSLETTER

**WE SURVIVED THE SUMMER OF IRENE AND ARE LOOKING FORWARD TO THE HOLIDAYS!**

Since our spring newsletter, the biggest news here at SCOMSA certainly is the addition to our group of Ballston Spa native Dr. Seth T. Farren. Seth graduated from the University of Buffalo School of Dental Medicine in 2003 and then entered the United States Air Force where he completed an Advanced Education in General Dentistry residency program. He continued on active duty and served as a general dentist until 2006. Dr. Farren completed the oral and maxillofacial surgery residency program at Nassau County Medical Center in 2010 before returning to Saratoga County. Dr. Farren's areas of particular clinical interest include dental implantology and temporomandibular joint dysfunction.

**Facebook**

In June, Dr. Bulford hosted our annual summer party at his home in Glenville. In between swimming, volleyball and delicious food the doctors, the staff and their family members all took turns "Sumo Wrestling." It was a remarkable event!

Dr. Bulford and Dr. Olszowka supported the Albany Park Playhouse production of "The Producers" this summer and are always happy to support the arts in our community.

Dr. Bulford and Dr. McDermott also supported SPAC's ballet program by attending the Ballet Gala with several invited guests. A wonderful time was reported by all who attended.

In September, to more conveniently serve patients who live west of Saratoga County, SCOMSA opened a satellite location in Gloversville, New York. Our Gloversville office is located at 22 First Avenue and our phone number at that location is: **725-3560**.

**Dr. Bulford has completed Wilckodontics training and is now a certified Accelerated Osteogenic Orthodontics™ (AOO™) professional. A prospective orthognathic surgery patient's orthodontic treatment plan component can be dramatically accelerated with the AOO™ procedure. In most instances orthodontic cases can be completed 3 to 4 times faster than with conventional orthodontics.**

The Ellis Hospital Dental Implant Study Group kick-off meeting in September was attended by over 50 dental professionals. The speaker was Dr. Nadir Sharifi whose lecture was sponsored by Nobel-Biocare. Dr. Sharifi's topic, "Twenty-First Century Esthetics," was very well received. Please call Lisa @ 583-4497 option 6, if you would like to become a study group member.

## We sincerely thank you for choosing our practice.

In September Dr. Bulford and Dr. McDermott attended the National AAOMS Meeting in Philadelphia. SCOMSA administrative, management and billing staff members also attended. In total the doctors and staffers attended more than 47 course offerings during the nearly week – long meeting.

The educational enrichment was only exceeded by the special bond we now enjoy for having gone through the experience together as a practice.

Dr. McDermott and Dr. Farren have just returned from an intensive oral surgery review course in New Orleans, Louisiana and are happy to be back at home.

SCOMSA has expanded the implant systems we currently offer your patients to include:

**Astra Tech**  
**Bicon**  
**Biomet 3i**  
**BioHorizons**  
**Keystone**  
**Nobel-Biocare**  
**Sterngold**  
**Straumann**  
**Zimmer**

Please let our implant coordinator Rebecca Pecorino know which system you prefer in general or which system you'd prefer be used for a specific patient's case.
